

Victoria Avenue Corridor Review

**Thursday, March 16, 2017
7:00 pm – 9:00 pm
St. Frances School
2141 McPherson Ave**

Residents surrounding Victoria Avenue are invited to attend a public meeting to view the proposed design of Victoria Avenue between 11th Street and 8th Street. The meeting will be hosted by the City of Saskatoon, Transportation Division.

The City has been preparing a corridor plan for Victoria Avenue in anticipation of the reopening of the Traffic Bridge. An assessment has been completed between 11th Street and 8th Street in order to make modifications and/or improvements to this section of roadway and make Victoria Avenue consistent with newly approved plans and directions, such as the Active Transportation Plan.

All local stakeholders are welcome and encouraged to attend. Please join us as we discuss Victoria Avenue. Information will also be available on our Shaping Saskatoon web page – www.shapingsaskatoon.ca.
